

INVESTMENT POLICY STATEMENT

NDPERS Group Insurance Account

I. Plan and Fund Overview

The ND Public Employees Retirement System (NDPERS) Group Insurance Account (Fund) was established to hold insurance premiums collected from employers until paid to the insurance carrier.

Client Investment Objectives

Premiums are collected throughout the month at NDPERS and will be forwarded to the Fund investment account on approximately the 5th of each month. The premiums transferred into the investment account will be transferred back to NDPERS on approximately the 20th of each month so they may be remitted to the insurance carrier. The investment objective of the Fund is to maximize the return on the deposits within the short-term time-frame involved.

II. Responsibilities and Discretion of the State Investment Board

The State Investment Board (SIB) is established under NDCC § 21-10. The NDPERS Board has entered into a contract with the SIB for investment services as allowed under NDCC § 21-10-06. The NDPERS Board is responsible for establishing policies on investment goals and asset allocation of the Fund. The SIB acts as a fiduciary and must invest, reinvest, and manage such assets in accordance with the Prudent Investor Rule and the policies adopted by each fund's governing body.

Pursuant to NDCC § 21-10-02 and NDCC § 21-10-02.1, the SIB shall:

- Implement investment policies and asset allocations established by each fund's governing body.
- Approve investment guidelines, procedures, and permissible securities for the funds under its management.
- Serve as custodian of securities purchased on behalf of such funds or designate a qualified custodian.
- Establish written policies on investment goals, objectives, and asset allocation, including liquidity requirements, diversification, and acceptable levels of risk.
- Develop procedures for the selection, retention, evaluation, and termination of professional money managers, consultants, and custodians.

Delegation and Oversight

The SIB may delegate investment responsibility for all or part of a fund to professional money managers that meet established qualifications. When such delegation occurs, the SIB's role is supervisory rather than advisory, ensuring that each manager operates within approved guidelines and performance expectations.

The SIB may also pool assets of this Fund with other funds having similar objectives and time horizons to enhance diversification, reduce costs, and improve returns. In pooling fund assets, the SIB must ensure compliance with the Prudent Investor Rule and the objectives of all participating funds.

III. Investment Performance Objective

The Fund's investment objectives are expressed in terms of reward and risk expectations relative to investable, passive benchmarks. The Fund's policy benchmark is comprised of policy mix weights of appropriate asset class benchmarks as set by the SIB.

- The fund's rate of return, net of fees and expenses, should at least match that of the policy benchmark over a minimum evaluation period of 5 years.
- The fund's risk, measured by the standard deviation of net returns, should not exceed 115% of the policy benchmark over a minimum evaluation period of 5 years.

IV. Asset Allocation

The NDPERS Board establishes the Fund's asset allocation, with input from consultants and/or the Retirement and Investment Office (RIO). The following allocation was established. The asset allocation will be reviewed periodically and updated when appropriate.

Asset Class	Target Allocation	Minimum Allocation	Maximum Allocation
Short Term Fixed Income	95%	90%	100%
Cash Equivalents	5%	0%	10%

Rebalancing: The need to rebalance the portfolio can arise from a new asset allocation or because market activity has driven the actual distribution of assets away from the desired mix. To minimize transaction costs from rebalancing, RIO develops appropriate ranges around the target mix (which are specified in the policy statement). Rigidly adhered to, such a policy is a valuable risk control tool. By maintaining asset mix within reasonably tight ranges, the SIB avoids making unintentional "bets" in the asset mix and avoids market-timing decisions.

All funds the SIB oversees have an asset allocation with minimum and maximum limits assigned. RIO's rebalancing policy requires the asset mix to be determined at the end of each month and that appropriate rebalancing takes place.

V. General Restrictions and Guidelines

While the SIB determines quality, diversification, and performance standards for investments, the following restrictions apply:

1. Derivatives may be used to manage and replicate systematic exposures, for fund rebalancing, and for risk management, which includes overlays (i.e. cash overlay program).
2. Derivatives, short selling, and security margining may be used in a manner consistent with approved manager guidelines.
3. Derivatives use will be monitored to ensure that undue risks are not taken.
4. No investment may jeopardize the tax-exempt status of the Fund.
5. All assets must be held by the SIB's master custodian or an approved sub-custodian.
6. Social Investing is prohibited unless it meets the Exclusive Benefit Rule (NDCC § 21-10-08.1).
 - a. Social Investment is defined as "the investment or commitment of public funds for the purpose of obtaining an effect other than a maximized return at a prudent level of risk to the state." (NDCC § 21-10-08.1)
7. Economically Targeted Investing is prohibited unless it meets the Exclusive Benefit Rule.
 - a. Economically Targeted Investment is defined as an investment designed to produce a competitive rate of return commensurate with risk involved and create collateral economic benefits for a targeted geographic area, group of people, or sector of the economy.

Exclusive Benefit Rule

For the purpose of this document, the Exclusive Benefit Rule is met if the following four conditions are satisfied:

1. The cost does not exceed the fair market value at the time of investment.
2. The investment provides the Fund with an equivalent or superior rate of return for a similar investment with a similar time horizon and similar risk.
3. Sufficient liquidity is maintained in the Fund to permit distributions in accordance with the terms of the Plan.
4. The safeguards and diversity that a prudent investor would adhere to are present.

Where investment characteristics, including yield, risk, and liquidity, are equivalent, the SIB's policy favors investments that will have a positive impact on the economy of North Dakota.

All investments shall be made in compliance with applicable laws, regulations, and policies governing the State Investment Board.

VI. Internal Controls

The SIB shall maintain a system of internal controls designed to prevent loss of funds arising from fraud, error, or mismanagement.

Key controls include the segregation of duties, which ensures that no single individual has authority or control over all phases of an investment transaction. Specifically, the responsibilities for initiating investment purchases, recording and reconciling investment activity, and custodial safekeeping of assets are separated among different staff, functional areas, or service providers to provide independent checks and balances.

Other critical controls include maintaining written or electronic confirmations of all investment transactions and establishing formal criteria for broker relationships and trading counterparties. Annual financial audits will include a comprehensive review of the portfolio, accounting procedures for security transactions, and verification of compliance with this Investment Policy.

VII. Evaluation and Review

The Fund's performance will be evaluated against its investment objectives, with emphasis on rolling 5-year results. Reports to the NDPERS Board (no less than annually) will include:

1. A list of investment managers and their performance relative to benchmarks net of fees.
2. Earnings, percentage earned and change in market value of each mandate.
3. Current portfolio allocations and performance summaries by asset class.
4. All material legal or legislative proceedings affecting the SIB.
5. Compliance with this investment policy statement.
6. A general market overview and market expectations.
7. A review of fund progress and its asset allocation strategy.
8. Provide details of fees and costs (annually).

VIII. Withdrawals

1. **Routine Withdrawals:** The Client may redeem capital with 3 business days' notice. Staff will make reasonable efforts to accommodate withdrawal requests on a shorter timeline when feasible; however, settlement is normally on a T+3 basis.

Approved by the Board: 3/10/2026

Approved by SIB: 3/20/2026
